INDEX

Akselvoll, K. & Moin, P. Large-eddy simulation of turbulent confined coannular jets, 387–411

Balk, A. M. The suppression of short waves by a train of long waves, 139–150

Boss, E., Paldor, N. & Thompson, L. Stability of a potential vorticity front: from quasi-geostrophy to shallow water, 65–84

Cassel, K. W., Smith, F. T. & Walker, J. D. A. The onset of instability in unsteady boundary-layer separation, 223–256

Denier, J. P. & Mureithi, E. W. Weakly nonlinear wave motions in a thermally stratified boundary layer, 293–316

Dowling, A. P. *See* Kuo & Dowling

Feng, J. & Joseph, D. D. The motion of a solid sphere suspended by a Newtonian or viscoelastic jet, 367–385

Grek, G. R., Kozlov, V. V. & Titarenko, S. V. An experimental study of the influence of riblets on transition, 31–49

Hu, F. Q. *See* Otto, Jackson & Hu

Jackson, T. L. *See* Otto, Jackson & Hu

Joseph, D. D. *See* Feng & Joseph

Kitoh, O. *See* Nakabayashi & Kitoh

Kozlov, V. V. *See* Grek, Kozlov & Titarenko

Kuo, C.-Y. & Dowling, A. P. Oscillations of a moderately underexpanded choked jet impinging upon a flat plate, 267–291

Leboeuf, R. L. & Mehta, R. D. Vortical structure morphology in the initial region of a forced mixing layer: roll-up and pairing, 175–221

Manasseh, R. Nonlinear behaviour of contained inertia waves, 151–173

Manga, M. Dynamics of drops in branched tubes, 105–117

McIver, M. An example of non-uniqueness in the two-dimensional linear water wave problem, 257–266

Mehta, R. D. *See* Leboeuf & Mehta

Moin, P. *See* Akselvoll & Moin

Mureithi, E. W. *See* Denier & Mureithi

Nakabayashi, K. & Kitoh, O. Low Reynolds number fully developed two-dimensional turbulent channel flow with system rotation, 1–29

Ockendon, H., Ockendon, J. R. & Waterhouse, D. D. Multi-mode resonances in fluids, 317–344

Ockendon, J. R. *See* Ockendon, Ockendon & Waterhouse

Otto, S. R., Jackson, T. L. & Hu, F. Q. On the spatial evolution of centrifugal instabilities within curved incompressible mixing layers, 83–103

Paldor, N. *See* Boss, Paldor & Thompson

Phillips, R. J. Dynamic simulation of hydrodynamically interacting spheres in a quiescent second-order fluid, 345–365

Skyner, D. A comparison of numerical predictions and experimental measurements of the internal kinematics of a deep-water plunging wave, 51–64

Smith, F. T. *See* Cassel, Smith & Walker

Thompson, L. *See* Boss, Paldor & Thompson
